Salesforce Release Lead (Multiple Openings)

Description

The Salesforce Release Lead will be responsible for the Salesforce domain release management, process design, optimization, schedule, policy and stakeholder engagement. The Release Lead is the major liaison between application development and production for release management control working with a third-party. As the point of contact for the Salesforce development team(s), the leads will manage and optimize the release process, implement Copado best practices, Salesforce native deployment tools, and sandbox strategies. The ideal candidate will have strong Project Management skills as well as release management experience with cloud technologies.

Education

Bachelor's degree or higher in Computer Science or a technical discipline.

Experience

A minimum of 3 years of experience in Salesforce development with proven release responsibilities.

Responsibilities

- Develop, audit, monitor and enforce established release management processes and policies in support of cross-domain configuration integration, testing, completeness, and consistency.
- Provide support to domain-specific release management resources in a timely and efficient manner.
- Coordinate release program activities and functions as a subject matter expert in release management, ensuring production readiness in a timely fashion.
- Ensure alignment with third-party deployment expectations and processes, keeping development teams up-to-date on changes with schedule, processes or policies.
- Create and tracks the release improvement process to be applied across all Salesforce domains and functions.
- Present relevant release information to Developers, Project Managers, and customers, as needed

Qualifications

- Bachelor's degree in computer science, management, IT or related field.
- A minimum of 3 years of experience in Salesforce development with proven release responsibilities
- Prior experience with VA / US Government Agencies
- Proficiency in application development release processes and tools.
- Salesforce certifications: Admin, Platform App Builder, Copado Admin
- Strong analytical skills and troubleshoots metadata deployment errors
- Has Solid communication skills with the ability to proactively keep the team mindful of deadlines and requirements, clearly articulates what and why process steps are necessary
